

THINK GIRL IMAGINED HER STORY OF ATTACK

Suspect Frankly Admits That
He Met the Child, but She
Denies It.

LAKEWOOD, N. J., July 14.—After spending the night guarding the swamp at New Egypt near here, Sheriff Frank Tilton is becoming of the opinion that seven-year-old Clara Hauptman of South Lakewood, who told yesterday of having been attacked by a negro, has a vivid imagination. The child said the man dragged her into the bushes and then led into the swamp.

In Point Pleasant, John Wright, a dark complexioned man who might have been mistaken for the child for a negro, was arrested on suspicion, she declared he was not the man who attacked her.

Wright admitted frankly he met the child while he was picking berries and that she screamed and ran. He established the truth of their meeting, despite the girl's denial, by stating that she carried a sunshade, a fact not before mentioned.

Wright is being held, but the authorities believe he is telling the truth and that Clara embellished the story.

Must Be Dressed on Porch.
ATLANTIC CITY, N. J., July 14.—Mr. and Mrs. Frank Martin, Thomas Martin and Ella Drummond were before

Magistrate Hand yesterday charged with having appeared on the porch of their home at No. 164 Fifth avenue, Ventnor Heights, in attire so unconventional that it was considered improper by amateur censors. After hearing the evidence the Magistrate gave the four forty-eight hours to leave town. If they fail to obey they will be sent to jail.

M'REYNOLDS FAVORITE.

If He Gets Lurton's Place Garrison
May Succeed Him.

WASHINGTON, July 14.—James C. McReynolds, Attorney-General of the United States, to-day stands to the front among the lawyers suggested as possible successors to Justice Lurton of the Supreme Court, who died in Atlantic City Sunday.

In circles close to the President it was said Mr. McReynolds had the "inside track."

PLAYGROUND SITES WILL BE SELECTED AT MEETING TO-DAY

Picking Out Lots Proffered as
Result of Campaign of
Evening World.

MANY ARE AVAILABLE.

Colored Citizens Make Pleas
for Little Ones of
Their Race.

By Sophie Irene Loeb.

A meeting is being held to-day at the office of Park Commissioner Cabot Ward to go over the many vacant properties available for playlots with a view to opening these as soon as possible, as suggested by The Evening World campaign.

It is intended to take the best of these plots in various parts of the city where they are most needed. Several hundred have been offered but all are not situated in the most desirable places.

It will therefore be necessary to go over the list carefully and designate those which will prove to the best interests of the children in various sections.

DEFINITE PLACES WILL SOON
BE SELECTED.

The Safety First Society will be represented by Mr. Elliot, Secretary of the association. Mr. Lee, Superintendent of Playgrounds, will also be present to suggest ways and means as to supervisors, etc. We hope to have some definite places settled for immediate use after this meeting, and the Park Commissioner will bend every effort in this direction.

In the various trips made throughout the city to find available spots for play in co-operation with the campaign of this newspaper, Manhattan has been well covered, and the other boroughs are clamoring for play spaces.

A tour will therefore be made this week in Brooklyn for this purpose. There are several very desirable places that might be readily procured and the movement will spread to that vicinity accordingly.

Two lots have already been offered from Brooklyn, and the Park Commissioner will be asked to look over these. They are turned over by the owner, L. W. Rubenstein, who says the site is a most desirable one and he hopes they may be used to good advantage.

These lots are designated as follows: Nos. 46 and 48, 120th St., Section 20, Volume 4, Block 643, Avenue M, between Smith Street Line and Ocean Boulevard on the north side.

COLORADO FOLK ASK CO-OPERATION OF EVENING WORLD.

Since the Evening World campaign began many requests have been received from prominent colored societies and individuals interested in procuring play places for the little colored citizens in the vicinity, where there is considerable congestion.

Eugene K. Jones, director of the National League on Urban Conditions Among Negroes, makes a strong plea for playgrounds, saying:

"This league has for more than two years been trying to secure playground facilities in or near the large Harlem colored settlement bounded by One Hundred and Thirty-first and One Hundred and Forty-first streets and the Harlem River, in which more than 40,000 negroes—including 8,000 children of school age—live."

"This effort has had the endorsement of three successive Park Commissioners, and according to correspondence of the members of the Board of Estimate. Yet nothing definite has been done and the children still use the streets for play."

"Of course it is not necessary for me to impress you with the need in the colored district of Harlem. I simply write to you to draw your attention and to urge you to take steps as may be necessary to relieve the situation."

John T. Clark, Secretary of the above association, suggested six vacant lots in the neighborhood and four of these have been secured along with others in that vicinity during the tours made for the play places. These places are as follows: One lot, 50x100, at W. 134th st., owner, August Ruff; lot, 50x100, W. 135th st., owner, A. Schuyler Clark; lot, 75x100, E. 7, W. 136th st., granted by Mr. Mason, lessee; plot between 138th to 139th along 5th ave., owner, Henry Hill.

John M. Royall of that district is also active on behalf of the colored citizens and will have several properties to report in a few days. Alderman Ignatius who represents this section has obtained the consent of the Mutual Life Insurance Company, who owns property there, to lend the same to be used for playgrounds. Altogether the movement in behalf of the colored populace bids fair to bring abundant returns in the way of play lots.

MANY OTHER SUGGESTIONS

Other communications cite conditions in particular places and plead for leniency from the officers in allowing the children to play where they seemingly do no harm. A typical one of these reads:

"I am very much pleased with the fight your paper is making for more playgrounds for children. Now on Park avenue from Forty-fifth street to Fiftieth there is quite a little room for children to play, but they are not allowed there. They cannot even have a little game of ball. There are no windows near for them to break with a ball, but the police chase them away before they almost begin. Please try and see if you cannot get

this space for them as long as it is not used for other purposes."

In view of the general public cry for relief from all parts of Greater New York, the Police Department is busy on the various phases of the problem.

Inspectors Meyers and McCray of the Traffic Department are putting forth all energy in this direction and promise to have some specific schemes to present in a very short time. They have instituted the rotary system of traffic in Prospect Park, together with "isles of safety" near the entrance for pedestrians which will minimize the danger to a great degree. Also they are studying the scheme of one-way traffic as applicable to some parts of the city and will not doubt have some worth while plans on the way in the immediate future.

CLAFLIN CREDITORS WILL MEET FRIDAY

Announcements for a meeting of the creditors of the H. B. Claflin Company, to be held in the ballroom of the Park Avenue Hotel at 10:30 o'clock Friday morning, July 24, were sent out yesterday. A statement of the assets and liabilities so far as they will have been ascertained will be presented, together with all available information, to the 1,500 mercantile creditors. No reorganization plan will be proposed.

On account of the large number of creditors no hall of sufficient size downtown could be found. The meeting of the creditors of the Defender Manufacturing Company will be held in the Park Avenue Hotel at 4 o'clock in the afternoon on the same day.

FAMILY IS MADE ILL BY POISONED BERRIES; WOMAN IS SUSPECTED

Is Said to Have Made Threat
When Accused of Tres-
passing.

WATERBURY, Conn., July 14.—Le Roy Judd, his wife and their fourteen-month-old daughter are seriously ill at their home, No. 22 Coe street, and to-day physicians said their condition was due to eating huckleberries poisoned with paris green.

The illness of the husband and wife and baby followed a visit Sunday evening by them to the home of Mr. Judd's father, who owns a tract of land at East Farms on which there is a large huckleberry patch.

On going to their own home they took a quantity of huckleberries with them and that night ate of them freely and gave the baby some of the juice of the berries. A few hours later all of them became ill.

An investigation showed that several days ago a woman was picking berries in the patch and was told that she was trespassing. According to a

report made to the police, the woman then said that if she could not eat the berries as one else could, that she purposed poisoning them.

Mr. Judd said to-day that he attributed his, his wife's and baby's illness to ptomaine and did not credit the theory that paris green had been put on the berries, despite the doctors' opinion. If a final chemical examination shows the presence of paris green the police will make an arrest to-day.

DOG'S "TALK" FOUND OWNER

BOSTON, July 14.—Thomas Cook, seventy-three years old, and his dog Towser held a happy reunion in Police Station No. 2 to-day. Cook was taken there yesterday unconscious from a fall in Washington street.

The dog was unable to follow the patrol wagon and arrived at the police station after his master had been sent to the relief hospital. With howls and yelps he persuaded the police to permit him to enter the station. Lieut. Mulligan tied Towser to a cell for the night. The dog refused food. This morning the officer, who is a dog lover, interviewed Towser. The officer talked. Towser talked back.

"Oh, I see," said Mulligan, "you want to talk to your master. Since I do not know him you'll have to identify him yourself."

Taking Towser upstairs the lieutenant allowed him to sniff various envelopes containing effects of recent prisoners. Sniffing the one marked "Cook," the dog jumped and howled, looking expectantly at Mulligan.

Telephone message to the relief station made dog and master happy.

A complete novel each week in The Evening World. A book which on the stands would cost you \$1.25 you can get this way for six cents.

A Restful Bath

Glenn's Sulphur Soap

Contains 30% Pure Sulphur. A warm bath with Glenn's Sulphur Soap before retiring is soothing, refreshing and induces quiet, restful sleep. Such a bath is a true sulphur bath, whenever the external application of sulphur is indicated—as Glenn's Sulphur Soap contains a high percentage of sulphur and its daily use soothes and cleanses the skin.

Used regularly in the toilet it will be found most effective for removing the complexion fair and clear, free from pimples, black heads, freckles, ringworms, etc.

Sold by All Druggists, 25c.

"Don't Walk in the Sun—Talk in the Shade"

"The Best Way on a Hot Day —Telephone"

RESULTS come quickest to the man who does his work the best way—and on a hot day the telephone way is the best way.

Don't waste your time and energies walking about the hot, dusty streets.

Don't pass by the Blue Bell telephone signs, when they so easily direct you to a cooler and better way to get results.

Make this summer your big summer for business. Take the public telephones into your confidence and travel the best way on a hot day.

Don't Walk in the Sun
—Talk in the Shade.

NEW YORK TELEPHONE COMPANY

90% Sell Service; the Rest Sell—?

90% of the garage men in New York City recommend Dixon's Graphite Lubricants. Why? Because they are selling honest service—100% service for every dollar charged.

A few of the remaining 10% don't know the value of Dixon Lubricants—yet. The rest don't sell service—they sell inferior greases, with inferior graphite that packs and clogs the gears; greases long on profits, but mighty short on lubrication. They are the few who will soon have the "For Rent" sign on their door.

But when a motorist stops at your garage and asks for a can of

DIXON'S Graphite Grease 677 For Transmissions and Differentials

you know that he has confidence in your ability to give him the highest value in service. He demands Dixon Lubricants because he knows they are the best lubricants for use in his car.

Dixon Lubricants knock out cold the deadly jinx of the motor car—Friction. Dixon Lubricants put Friction flat on the canvas and he's there when the bell rings. He can't come back. Dixon Lubricants go straight into the tiny pockmarks that are on all bearings, fill in the holes, and make a smooth, tough, veneer-like coating that absolutely prevents metal-to-metal contact.

The selected flake graphite used in Dixon Lubricants is the only graphite that successfully meets the severe requirements of automobile lubrication. It is not affected by heat or cold. It has an ideal thinness and flexibility. It cannot pack or ball up, because it does not adhere to itself.

Garage dealers who are eager to sell 100% service to their customers recommend Dixon Lubricants, because a Dixon-lubricated car gives greater satisfaction and longer service than a car lubricated by an oil, grease, or an inferior graphite mixture.
